

PRODUCT CATALOGUE 2022-2023

Vision has invented a wallet that allows blind people to identify currency notes and also determine if they are authentic or fraudulent. Vision has also invented worlds most compact currency note checker for the sighted people.

Hasin Vaidya (Founder Of Vision)

Hasin vaidya is the founder of Vision.

Before he founded vision Hasin Vaidya he was pursuing his under graduation in Bachelor of Design (Product Design/ Industrial Design) from Karnavati University, Uvarsad, Gandhinagar.

At a very young age of 21 years, Hasin Vaidya got inspired of founding vision when he went on a educational tour to Blind People Association from his University, to do a study on a module called Design for special needs over their he observed that the blind people were facing issues identifying currency notes and they could not find out weather the currency notes are real/fake observing this Hasin Vaidya thought of inventing a assistive device for the blind people through which they can handle cash easily.

Welcome

Hasin Vaidya took this project as his Graduation project and after graduating from the university in 2019 Hasin Vaidya Started the R&D (Research & Development) of the product and after 2 years of technical and design R&D Vision launches its first product in the year of 2021.

Vision is thankful to state Government of Gujarat and the Central government of India for funding & mentoring the project and giving Vision a opportunity in contributing something to the society and the country.

Vision is always at a front foot when it comes giving back to the society. Visions founder Hasin Vaidya has started a initiative of making the blind people atmanirbhar (Financially Independent) by organizing stalls for them in different societies and different areas of Ahmedabad where blind people can sell their snacks/anyother product made by them and earn.

contents

1. Vision: Wallet For The Unsighted.
2. Vision 2: Worlds Most Compact Currency note checker.
3. Vision's Initiative Of Making Blind People Atmanirbhar (Financially Independent).

Vision Wallet For The Unsighted

Vision has invented a wallet for the blind people through which they can identify currency notes and can also check whether they are real/fake

The wallet is integrated with sensors and speakers which detects the currency notes and gives a audio output in 2 languages (Hindi, English)

On placing the currency note from any corner on the device which is attached on the wallet the speakers will give a audio output in 2 languages (Hindi, English). The design of the device is so convenient that on placing the currency note from any corner on the device the currency note will exactly fit in the grooves and give the most accurate reading.

Vision 2: Worlds Most Compact Currency note checker.

Vision has also invented worlds most compact currency note checker it is so compact that one can use it as a keychain, attachment on mobile covers, wallets/purses etc.

This is the most accurate and most compact currency not checker which will soon be available in the market and if this product is used by everyone the crimes related to fake currency notes will be completely eradicated.

On placing the currency note on the sensor if the Vision logo above indicates green color light that means the currency note is real.

On placing the currency note on the sensor if the Vision logo above indicates red color light and the buzzer starts buzzing that means the currency note is fake.

Vision's Initiative Of Making Blind People Atmanirbhar (Financially Independent).

Vision is always at a front foot when it comes giving back to the society. since 2021 vision is working on a mission to make blind people atmanirbhar (Financially independent). To do that Vision has conducted a pilot project on a very hard working blind couple Ashwin bhai Thakkar and Gita bhen Thakkar by organizing a snack selling stall for them at every society and different areas of ahmedabad on every sunday and with the help and love of people they get a good response.

Ashwin bhai Thakkar was a receptionist and a telephone operator at cama hotel (on of the notable hotel in ahmedabad) but due to the spread of Covid-19 virus the entire hotel industry collapsed and Ashwin bhai thakkar lost his job. Instead of losing hopes ashwin bhai Thakkar along with his wife started selling fresh homemade snacks for their survival. On hearing this Hasin Vaidya (Founder Of Vision) invited Ashwin bhai Thakkar to his society on 2 January 2021 to sell their fresh cooked snacks and they got a tremendous response on seeing this Hasin Vaidya Took Ashwin Bhai Thakkar to different societies and areas of ahmedabad on every Sunday.

Almost on every festival Vision does something to empower the blind people.

1. On Dusshersa Vision organized a fafda jalebi selling stall for the blind people at and we got a tremendous response atleast 300kgs of fafda and jalebi were sold by blind people within 24 hours
2. on 26 January and 15 August (patriotic Days of India) we celebrate it by distributing grocery kits to the blind people.
3. On makarsankranti we organized a Undhyu jalebi selling stall for the blind people and we got a tremendous response.

Very soon Vision plans to make many blind people atmanirbhar.
